What's New In AutoCAD?

Font Selection in the Font menu: Now you can select between two or more font styles in the Font menu. Choose from 16 display styles, including those that will be shown in combination when your drawings are created in PDF or Print PDF Viewer mode, and the new format for creating drawings. To access the new formats, select PDF Viewer in the Preferences dialog box on the View tab. Quick Rulers: The Quick Rulers tool in the Quick Access toolbar enables you to select multiple lines or points, move them by an amount, and then change their size. Improved Drawing Grid: Improved grid visibility and navigation with the Drawing Grid toolbar (Accessible via the View tab and the toolbar). Drawing Template: New Drawing Template tool enables you to create personalized templates for new drawings. It's similar to the New Drawing Template tool in AutoCAD 2018, but you can now add new drawing templates to the favorites folder. (video: 0:30 min.) Subscription services: Automation Vault for the Vault: Enables you to store AutoCAD files for sharing. Autodesk Web Apps: The Web app enables you to integrate your Autodesk account with your personal profile on a web browser for sharing. With the Web app, you can view, edit, annotate, and comment on your drawings. Autodesk eWorkflows: The eWorkflows app enables you to share a unique title for each work item. AutoCAD Mobile: - Improved search: A new search field in the AutoCAD Mobile app enables you to search for a drawing name, content, drawing element, or position. - New split editing: The new edit mode in the Mobile app allows you to zoom to an editable area in a drawing, set the position, and adjust the scale. When the edit mode is complete, you can open the drawing, save it, or close it. - New look and feel: A new theme has been added to the AutoCAD Mobile app. You can apply the theme from the Themes tab of the Options dialog box. - User experience improvements: Improved search: A new search field in the Mobile app enables you to search for a drawing name, content, drawing element, or position. Improved page design: A new look and feel for pages and drawing tables. You can now manage page options and insert and
