We used them as small indoor pillows. We put two covers on them to protect our couch and they looked really nice until one went missing and we could not find it. Even after we called the company they could not find it. It appears to be a minor design flaw that could not be predicted. March 23, 2016 Rated 5.0 out of 5.0 by Lydia Best soft, quick drying microfiber! I bought this over a year ago, and have used it repeatedly! It is the best I've found for drying mugs or glasses, or letting water out of a sink. I'm a special-needs parent and I can hang a towel in my kitchen from one of these to quickly dry clothes. The no-sweat, fast-drying design makes it especially great to take on travel. December 18, 2015 Rated 5.0 out of 5.0 by PegBest for bibs Very durable and light, very soft, as expected.
