This is the most convenient way to play. No longer will you have to keep your Sims home safe! You can let them out to explore and take full advantage of all the exciting things your neighborhood offers, like a new shopping district or a new park. Sims can even build their own neighborhood from the ground up, and complete a lot of tasks to earn Simoleons, reputation, and other rewards. It's very similar to the free worldbuilding tool. With this legendary tribe, you can live like a real-life Sim with all the options available. Its free for every Sim to start with. You can expect to play a wide array of games, including Sims for Creation Support and Star Cast for some video gaming sessions. Carefree Lifetime Happiness Points: 10,000 Why not have some fun on the road while your Sim is enjoying their lifestyle? This Trait gives your Sim lots of time to play around and relax, but it doesn't help with their need for social interaction or moodlets, so you'll need to do those yourself. It'll really help in the game if you do the Opportunities often, but even if you miss them, there is still some hope. Kitchen Sink Lifetime Happiness Points: 100,000 The Kitchen Sink has two features, one for the Kitchen and one for the Bathroom. First, the Kitchen Sink will remove any need from the Sim, which lets you have one of everything. This can be especially useful if your Sim is currently in need of food and doesn't have the money to buy it, but it isn't a useful way to actually cure the disease of addiction. As previously mentioned, making food will not cure the need, so it only helps in the short term with satisfying the need. The second feature is the bathtub which removes a need, but is rarely as useful as the sink. However, if you just want to have a relaxing experience with a pleasant moodlet and the result is the same, you can use this freebie.
